Accepted Labels State Tracking and Repository (ALSTAR)

There is no cost for states to participate in ALSTAR. However, each state agency must submit a signed **State Subscription Authorization** agreeing to the following standards.

State Standards for ALSTAR Participation

States participating in the Accepted Labels State Tracking and Repository (ALSTAR) project at Purdue University agree to the following:

- manage pending label acceptance in a timely manner
- maintain state profile to accurately reflect state requirements
- request inclusion of documents not currently identified in the ALSTAR list of supporting documents through the Standards Committee
- move away from paper labels towards electronic submission within one year, unless statutorily prohibited
- provide state registration data to NPIRS on at least a weekly basis

The primary contact for a state will submit a signed subscription form agreeing to the above Standards for ALSTAR Participation on behalf of their state ALSTAR participants. States who cancel their ALSTAR subscription agree that all links for electronic labels for their state will be removed from the ALSTAR database and removed from the NPIRS websites. The Standards Committee reserves the right to remove any state not adhering to the ALSTAR Standards for Participation.
